David B. Jarman

810 San Marco Blvd, Rapid City, SD, 57702, (605) 380-6530, DavidBJarman@gmail.com

Technical Skills

- C/C++
  - Implemented a shell using C in a Unix/Linux environment
  - Created a simple photo editor using the QT environment
  - Currently modifying existing DVR firmware to allow for communication between clients
- Objective-C
  - Designed, implemented, and delivered an iPad app that lets users control their DVR
  - Completed an iPhone app that lets users manage their land line telephone voicemails
- C#
  - Created an user interface using Windows Forms to view graphs of weather data, parsed from XML
  - Currently working on a multiplayer game server that provides communication between DVRs and logic for board games

Education

South Dakota School of Mines and Technology
Computer Science B.S., Expected May 2013

- Relevant Coursework
  - Cryptography, Fall 2011
  - Pattern Recognition, In Progress
  - Computer Graphics, In Progress

Experience

Innovative Systems L.L.C. - Software Intern, January 2011 - present

- ManageMyVMail – iPhone App
  - This application allows users to manage their voicemail on their iPhone or iPod Touch. At the start of creating this app, I was assigned with mentoring two new employees in Objective-C and the Cocoa Framework. Approximately a month after development and training, our team had a working prototype that was delivered to the Apple App Store, and was accepted on the first attempt.
- ManageMyTVs – iPad App
  - This application lets Set Top Box owners manipulate recordings on their DVR, view TV shows, and use their iPad as a remote control. While creating this app, I learned much, such as how to stream objects using Protocol Buffers, parallelize object-graph manipulations, and manage large projects. The most challenging part of this project was splitting tasks between team members, but this was mostly relieved by our use of Scrum development.

Office Max – Sales Associate, October 2008 – August 2009

- Provided knowledge and assistance to customers interested in buying computers and related technologies.

Activities/Awards

- Dean's List - Fall 2009, Spring 2010, Spring 2012
- Phi Eta Sigma
  - Treasurer: Spring 2010 – Fall 2010
- Mathematical Association of America
  - President: Fall 2009 – Spring 2010
- Engineers Make Great Entrepreneurs – Fall 2009
  - 3rd Place Scholarship winner for final speech on ethics
  - Attended four informational sessions concerning how to be a successful entrepreneur. Then, gave a 5 minute speech about what I had learned during those four sessions and was selected for 3rd place.
